This webinar is about looking at several different tools to see which ones will help you accomplish your goals for your classroom.

Responsibilities

- With Technology there are certain responsibilities we as educators need to teach our students.
 - Instruct students on safe and acceptable use of technology.
 - How to safely and properly share information online.
 - Teach about Copyright and Fair Use rules.

Social Media

Social media is media produced for social interaction through the use of web-based and mobile technologies to turn communication into interactive dialogue.

FCCLA,

How do I thank you for the essential life skills you have provided me with through Family and Consumer Science Courses and competitive events? How about the inspirational meetings I have attended? What about the thousands of miles you have allowed me to see? Most importantly, how do I thank you for the countless life long friend...

Edmodo...

provides social media tools for teachers and students, giving them the capability to share notes, links, and files in a modern way. Teachers also have the option to post any item to a public time line if they so choose, post events and due dates on a public calendar, and the ability to send alerts to students regarding events and assignments.

National FCCLA is now on SchoolTube.com!

Family, Career and Community Leaders of America is a nonprofit national career and technical student organization for young men and women in Family and Consumer Sciences education in public and private school through grade 12.

Everyone is a part of a family, and FCCLA is the only national career and technical student organization with the family as its central focus. Since 1945, FCCLA members have been making a difference in their families, careers, and communities by addressing important personal, work, and societal issues through Family and Consumer Sciences education.
